It was a bad case of congenital ear problem that I consulted Dr. Rajeev Mishra who gave me a congenital treatment of the ear problem. He is not only friendly, but also very motivating. The facilities available in the ENT & Matritva Maternity Clinic are very nice. Rajeev Mishra has in-depth knowledge and makes sure he explains the problem in detail. Finally, with his treatment, I am completely cured of the disease. I read about Dr. Rajeev on one of the social media platforms. And I consulted him about my throat and voice problem. It was becoming very difficult for me to cope with my throat and voice problems. Not only is he very calm and composed, but he is also a very understanding doctor. I'm pretty advantaged by his treatment that I'm comletely fine now. I took a nosebleed treatment (Epistaxis) from him. He's very patient with all his patients. I have to say that hygiene has been maintained very well in the ENT clinic. The complete process of treatment with nosebleeds (epistaxis) was so painless and fast, and I am so relieved that I chose to consult it. Dr. Rajeev is a very good doctor. Thanks to Dr. Rajeev for treating the tonsils. He is an ENT specialist and knows and exits the speciality. Whatever treatment I gave, I was fine with the best. His guidance and advice helped me immensely. He is a good specialist doctor in Varanasi because he treats the disease so easily. Nebulizer should be used until symptoms solve antibiotics should all be used under pediatric supervision. For children it will be better to stay in touch with the pediatric specialist if these medicines do not work will change it. It is safe and can be administered for a longer period, if necessary it will protect the lungs from further damage. I person found this useful it should be supported by administering antiallergic drugs on a prophylactic basis for a long time without fear of side effects Repeat allergic symptoms cause more damage to the respiratory system Do not take drugs like this ascorti comes in many variants consult the gynecologist before avoiding fruits in any form. Since 2006 Here's The Deal:Dr. Meenakshi Singh has specialized in all ENT facets. He did several dissections of temporal bones and EDF corpses. Dr. Meenakshi has a particular interest in dizziness, microscopic interventions in the ear, head and neck. Ent Clinic brings the most care to you and your family. It is located in Sundarpur, Ent Clinic provides complete microscopy, endoscopy, laryngoscopy and audiology, language instructions, listening devices.
